TUESDAY, April 1-P. M. The Stock market to-day continues buoyant, and at the Second Board there was more speculative feeling evinced than has been noticed for a long time. There ing evinced than has been noticed for a long time. There was an animated demand for fancies and at advanced rates, Harlem going up 1 P cent. and Eric 1 P cent. The latter Block has been very buoyant to day under the favorable result of the month's business, the receipts being \$3,400 more than the estimate, and the improvement to-day is 2 P cent. Harlem shows an advance of it P cent. with a good demand. Forwich went to 634, showing 1 \* cent. imdemand. Forwich went to 5/4, showing I \( \psi \) cont. Improvement. Morris was steady at 18\( \frac{1}{2} \) Farmers' Trust advanced I \( \psi \) cent, and Reading I\( \frac{1}{2} \) cent, under large sales. Canton was heavy at the First Board, but afterward recovered its firmness, closing at 64\( \frac{1}{2} \). There is more movement in New-Jersey Mining, and the market went to 15, a further advance of \( \frac{1}{2} \) focus Cent This Gompany are now manufacturing 3.500 the White Zine Palet 20 day and will shartly turing 3,500 fbe White Zinc Paint Pday, and will shortly have the remainder of their new furnaces in blast, and wil be able to turn out twelve thousand the P day. The paints produced by this Company are equal to the French, and the demand is largely in advance of their present ability to produce. The fact that Zinc White has no potsonous qual ities as White Lead has gives it the preference with all who regard health. Portsmouth was not buoyant. Edgeworth improved i P cent Stonington and Mohawk were steady. Eric Incomes were better, with large sales at 93. Convertibles are steady at 904. Delaware and Hudson was firm at 129. A sale of 400 shares was made at 129, buyer ninety days. Government Stocks were in fair request at

The Exchange market has taken a decided downward turn with a considerably increased supply. The sales have been very large at 10 P cent. for leading signal tures and included a lot of £70,000. Some of the purchases so-day have been to remit in the place of gold, the ship ment of which was intended by the Arctic, but which has been countermanded. We know of one lot of \$200,00 thus countermanded and several other smaller lots. One parcel of \$50,000 which was to go forward by the Frank in on Saturday has also been withdrawn. The Arctic will probably take considerably less than half a million. A por tion of the increased supply of Sterling to-day came from a leading house which had been drawn on at sight for \$409,600 at New-Orleans against that amount of gold reshipped to New-York, and which drew Sterling bills for re ursument. France are 5.10@5.071, with a fair mand. The Contidental quotations are, Amsterdam 4112 42, Hamburg 57 2571. Bremen 791 2791.

In Freights the market is steady but inactive. We notice engagements of Cotton at id, Dead Weight 12s 56@15s; L500 000s and Bacon and Cheese at 25@30s. To bbls Naval Stores 2s, and Bacon and Cheese at 25@30s. To Clasgow, 4,000 bbis Flour 18201943, and 100 tuns Oil at 22s 836258. To Amsterdam, Oil at 3c. A vessel was chartered to load Deals at St Johns for Limerick at £4 7s 6d-To California there is a fair amount of business doing at

We see by our advertising columns that the People's Fire Insurance Company has given notice of opening its books for subscription to its capital stock. The institution is to be located in, and is connected with, The People's Bank, at No. 173 Canal st. Being in one of our most active business ic cattons, and the company composed of men of business habits, we doubt not that the stock will be sought after, as that of the Bank was, until it was twice

Increased to meet the demands of its friends. The return of gold from New Orleans and the a better tone to the Money market, and on call capital is abundant. The Banks are doing rather more and are disposed to discount freely for their enstomers. On call, Money is 54,27 \$\psi\$ cent; Paper goes at 728 \$\psi\$ cent for

fret-class short dates, and 849 for long dates. The Receipts of the Erie Railroad for March prove to be considerably larger than was expected, and show an amount \$3,400 beyond the estimate. The figures

019; Paymer ts, \$38,812; Balance, \$3,912,696.

Some shrewd financiers have performed a bit of sharp practice by establishing a new Bank in this City, which they call the Bank of the Metropolis, and have obtained official recognition of it at the Controller's office. The capital is one hundred thousand dollars. The officers of the per redemption Bank of the Metropolis, for the purchase the state of the per redemption Bank of the Metropolis, for the purchase the state of the per state of pose, it is stated, of avoiding for the present, taxation, had omitted to file with the Controller their intentions of orgamixing under that title, which being discovered by the sharp witted operator, he immediately obtained legal possession of the name. As two Banks of the same title cannot be established in the same place, it follows that the original Bank of the Metropolia must change its name or close up its affects. To change the title of Bank or close up its affects. hirs. To change the title of a Bank requires, we under stand, the unanimous consent of the stockholders, and care has no doubt been taken that one stockholder at least in this Bank shall be perfectly content with the name and refus" to consent to a change. The fruit of this movement caused many broad grins in Wall st. and it was admitted to be one of the smartest efforts that locality has been the scene of

for some time. There is a fair business now doing in Dry Goods with an increasing inquiry, but prices have not re-covered the elasticity which characterized the market a menth or two ago. In Woolens, the stock of the Empire Mills Company (Mr. Hollister's) is pressing on the market in two or three private channels at about ten P cent. un der market prices, and has been very freely sold at this concession. Cotton Goods in heavy or moderate stock are not held firmly; the downward course of the raw material affects the price of all goods unless the supply is not more than adequate to the demand. Brown and Bleached Shirtings and Sheetings, with a very moderate inquiryshow no firmness. The stocks are large and current prices are obtained only for small parcels. Drills continue firm with a very scanty supply and good demand. Osnaburgs are steady, the light stock and limited production sustain-ing prices fully. Dealms are quiet, while holders offe. their stocks very freely and prices are steady. Stripes are dull and heavy. Ticks inactive. Printing Cioths are not active and prices have receded a fraction, but the market is unsettled and irregular, owing to the large stock. Prints have been more active. The stock is large, which has induced holders to submit to a decline, at which the sales have increased. Ginghams show a steady demand, which the supply fills at firm and regular prices. Cotton Pants' loosey is lower, with a very limited inquiry. Muslin de Laines are very active at full prices. There is a great disvestion are the prices. Laines are very active at full prices. There is a great disposition among manufacturers to circumscribe the production. The demand is limited in the regular trade and
chiefly to goods under \$2. Cassimeres are in moderate
demand and prices ateady for all descriptions. The Spring
styles are mostly inquired after. Sathests are not active but
are steady in price. Sheeps Greys are more firmly held
owing to the scanly stock. Prices have a tendency to advance. Tweeds show more inquiry and are steady. The
better grades are mostly wanted. Joans are without
change in price and sell to a moderate extent. Finnels
are form, with a fair Summer stock, Blankets are more are firm, with a fair Summer stock. Blankets are more wanted. The auction sales still press heavily on the trade and to the limitation of trade in foreign goods at private sale, especially in French Goods, with which the anction rooms have been crowded. British Goods

are steady but not active. Ribbons are the firm-est goods on themarket and fatey kinds sell free ly. Silk Fabrics have a heavy tendency. There is a great desire to cell, and though the demand is increasing this pressing of stocks keeps prices from being steady.—
The importations will benceforward be light—such are the advices—but hitherto they have been large. The sales for the season up to this period have aggregated an excess on last year, but the demand has been filled with less bustle than usual, owing to its being more divided and in smaller separate parcels. The earlier importations sold well. It is the later French importations which hang and depress the market by being forced at auction. Of other goods than French offering at auction, they are of old and undestablished the second of the s strable descriptions. Country dealers are arriving more freely, and payments are making with much regularity. The business yet remaining will be as good as any in the eason, but the market having been already broke by the fear and anxiety of holders and the free auction sales, prices do not seem likely to recover themselves, and the later purchasers will be more favored than the earlier ones while the stocks remaining over or replenished afford an equally good selection. The jobbers are selling more freely to their Wessern customers, and are consequently more disposed themselves to buy from first hands. This time last year a large business was doing to California, which this year is wanting. In all other respects the Spring season of 1851 is more favorable than that of 1850, The California markets are glutted, and shippers to that market do not command the credit they did a year ago.

The Journal of Commerce publishes tables showing that the imports of Dry Goods, including those taken from warehouse for consumption, for the quarter ending March #1, exceed those of the corresponding period of 1850 by \$4,932,181. The following summary will show of what description of goods the excess noticed is com

THE IRVING INSTITUTE.—LY-ON'S CLASSICAL AND COMMERCIAL BOARD-ING SCHOOL for Young Gentlessen, at Tarrytown, N. Y. The Principal is assidious it his regard for the moral welfare, the physical comfort, the intellectual improvement, the manners, and personal absits of his pupils.

The Course of Education comprises all the branches preparatory for College, or business; for professional or practical life, comprises Surveying and Civil Engineering; Drawing, Vocal Music. Plano, and French, by competent Masters. German and Spanish taught if required.

The Summer term commences on the 1st of May, and continues five months; charges for the term, Sife; this includes all expenses for Board, Tuition (except in Modern Languages and Music.) and the use of necessary books in English branches. A deduction will be made when two come from the same family.

For further particulars, references, kc. see circulars at most of the Broadway bookstores, or address at most of the Broadway bookstores, or address.

WM. P. LYON, A.M., P. lucipal and Proprietor. Letters should be addressed "North Tarrytown."

CLASSICAL AND MATHEMATICAL SCHOOL, West Poine, Now-York—The next
term of this Institution will commence on the first of May.
Application for admission at that time, should be made at
an early day.

"Columbia College, N. Y., Jan 16, 1851.
I take pleasure in stating my opinion that the Classical
and Mathematical School at West Point, N. Y., under the
charge of EDWARD V. KINSLEY. A. M. is worthy of
the confidence of Parents and Guardians. The course of
instruction, judging in part from students received in this
College from that school, is thorough and judicious—and
the discipline and moral culture at once efficient and successful. CHAS. KING. Li. D. Prewt of Col. College."
For References, Forms, &c., address the PRINCIPAL
at West Point.
